Guangzhou Renfu Medical Equipment Co., Ltd.
Meicen Medical Technology (Guangzhou) Co., Ltd.

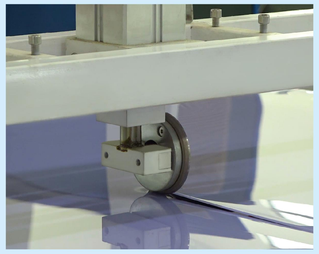
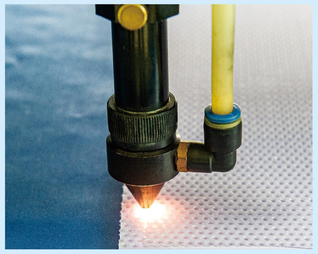
About Us

Guangzhou Renfu Medical Equipment Co. Ltd was founded in 2004, located in the central part of GD-HK-MC Greater Bay Area-Nansha, Guangzhou. With an approx. 5000 square meters' modernized workshop and a full range of R & D engineers, technicians, warehouse management team and well-trained sales team, we continue to develope new products to satisfy clinical demands.

As a world leader in manufacturing low temperature thermoplastic material, we dedicate to researching & developing, manufacturing and offering technical support for radiotherapy positioning systems and orthopedic rehabilitation products. Our products have been sold to over 30 countries and areas, covering Europe, North America, Asia, Africa and Mid-east. All of our products are in compliance with ISO 13485 : 2016 certificate, FDA, CE, MHLW (Japan) and other international regulations.

Renfu takes exquisite technique as core strength. We keep improving and manufacturing supreme products with innovative technology, provide excellent service through scientific management together with our partners around the world.





Violet Thermoplastics

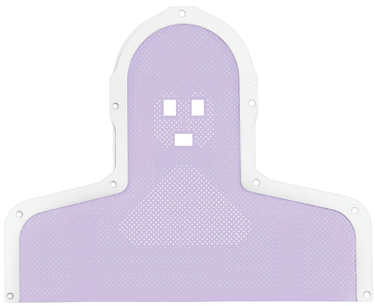
Meicen Violet Thermoplastics are made from a new, premium thermoplastic material clinically designed for optimal moulding time and patients comfort with extremely low shrinkage rate and non-sticky surface. Excellent patient experience is all we striving for throughout the entire process. Special designs are available upon request to meet diffferent manufacturers' baseplates compatible needs.

- **Low shrinkage;**
- **Optimal molding time;**
- **Ergonomically designed for patient comfort;**
- **Non-Stick;**
- **Violet color to alleviate patient anxiety.**

Emarginated frame design for easy removal.

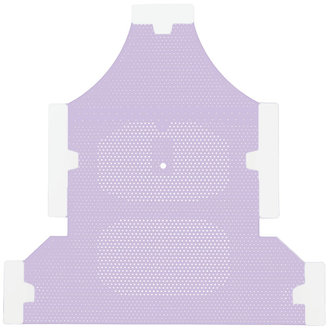
Meicen Featured Thermoplastics

Meicen IMRT Thermoplastics feature a combination of enhanced perforation and solid thermoplastic to provide rigidity and secure immobilzation for IMRT treatments. Open face & claustrophobia masks are compatible with VisionRT's Align RT Camera systems and other camera systems while standard perforation masks are more cost-effective and popular in most clinics.

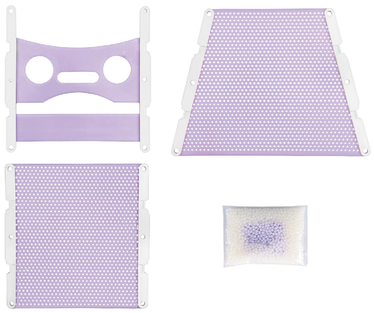


S-Type (Open Face)

P-Type (IMRT)



L-Type (IMRT)



Stereotactic X-Knife

Meicen Violet Masks are easy to prepare and can be heated with either a water bath at 65-70°C/149-158 °F or an oven at 70-75°C /158-167 °F. Please contact your sales representatives for more information.
