Guangzhou Renfu Medical Equipment Co., Ltd.
Meicen Medical Technology (Guangzhou) Co., Ltd.

About Us

Guangzhou Renfu Medical Equipment Co. Ltd was founded in 2004, located in the central part of GD-HK-MC Greater Bay Area-Nansha, Guangzhou. With an approx. 5000 square meters' modernized workshop and a full range of R & D engineers, technicians, warehouse management team and well-trained sales team, we continue to develop new products to satisfy clinical demands.

As a world leader in manufacturing low temperature thermoplastic material, we dedicate to researching & developing, manufacturing and offering technical support for radiotherapy positioning systems and orthopedic rehabilitation products. Our products have been sold to over 30 countries and areas, covering Europe, North America, Asia, Africa and Mid-east. All of our products are in compliance with ISO 13485 : 2016 certificate, FDA, CE, MHLW (Japan) and other international regulations.

Renfu takes exquisite technique as core strength. We keep improving and manufacturing supreme products with innovative technology, provide excellent service through scientific management together with our partners around the world.

SBRT Immobilization System

Model MC-CS001

MRI safe option available

Meicen SBRT System is highly accurate, multi-functional and user-friendly for SBRT patient setups. The carbon fiber platform adaptable to any manufacturer's couchtop. The height of the belly and knee bridges can be adjusted quickly, and the bridges lock and unlock without fuss. The system features a single size respiratory bridge adjustable to fit all patients that is constructed of carbon fiber to minimize image artifact and beam attenuation.

The SBRT System is mainly comprised of a Carbon Fiber Baseplate, a Wing Board T-Grip with an accompanying Vacuum Bag, two adjustable bridges for belly and knee with compression plate and arches, two detachable cushions for knee and feet.

1800/2000 (Length) x 530 (Width) / mm

High accuracy

Clear and precise scale improves reproducibility accuracy.

Patient comfort

Ergonomically design for patient comfort.

Versatility

Simple to form a set-up for various demand.

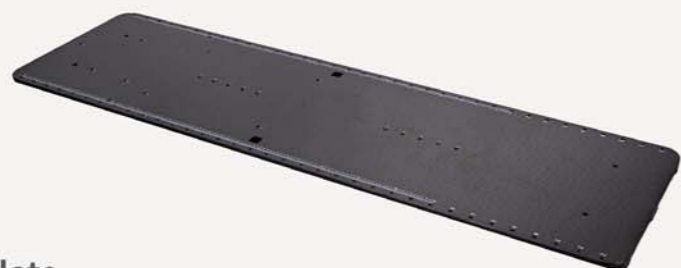

User-friendly

Easy and simple to handle.

SBRT Immobilization System

Included components

Baseplate

- Light weight for easy handle and carry;
- Multiple holes for efficient index;

Belly Bridge
R-CSA01

Knee Bridge
R-CSB01

- Ergonomic Compression Paddle for better comfort;
- High-precision scale improves reproducibility;
- Quick-lock for fast and precise positioning.

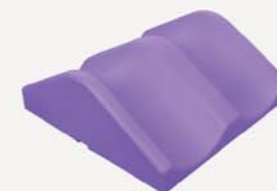

Wing Board T Grip
MC-WB001

- T Grip allows for comfortable arms-up position;

Included components

Knee Cushion
R-FC02

Elevation Cushion
R-FC03

Foot Cushion
R-FC04

Vacuum Bag

Headrest

SBRT Indexing Bars

SRS Immobilization System MRI safe option available

- Streamlined and hollow out design to minimize ray blocking;
- Formed in integration secures durability and solidness;
- Ergonomic pulling pins for easy operation;
- Compatible with most manufacturers' baseplates.

SRS Components

Meicen SRS Cradle

C-Series Baseplates

MRI safe option available

- Adjustable scale for different body width;
- Sides emargination for simple installation and carry;
- Configured for multiple treatments;
- Compatible with Vacuum Bags, all S-type thermoplastic masks.

Model MC-CF001

Meicen C-Series AIO Baseplate
1300 (Length) x 606 (Width) / mm

Quick Lock

Groin Lock

Compatible with:

C-Series Baseplates

MRI safe option available

Model MC-CF002

Meicen C-Series Head & Shoulder & Breast Baseplate
1000 (Length) x 606 (Width) / mm

Optional Component

Meicen Overhead Arm Support can be easily and firmly connected to the C-Series Baseplates. It is designed for improving positioning accuracy and reproducibility. It is also compatible with B-Series Baseplates.

Overhead Arm Support
Carbon fiber: R-CFA02

Compatible with:

- S-Type Masks
- Vacuum Bags
- Headrests
- Indexing Bars

C-Series Baseplates MRI safe option available

- Contoured design for patients comfort;
- Adjustable scale for different body width;
- Built-on Groin Lock for better positioning;
- Combined with Vacuum Bags and masks for specified positioning.

Model MC-CF003

Meicen C-Series Pelvic Baseplate
850 (Length) x 575 (Width) / mm

Groin Lock

Quick Lock

Compatible with:

Trunk Mask(Chest-Pelvic)

Trunk Mask(Pelvic)

Vacuum Bags

Indexing Bars

B-Series Baseplates MRI safe option available

Meicen B-Series Baseplates is our slide-type products configured for multiple treatments, can be used to immobilize the head, neck, shoulders, thorax, and pelvic for targeted as well as whole-body irradiation.

Model MC-BF001

Meicen B-Series AIO Baseplate
1300 (Length) x 606 (Width) / mm

Slide Block (Replaceable)

Model MC-BF002

Meicen B-Series Pelvic Baseplate
850 (Length) x 575 (Width) / mm

Compatible with:

Trunk Masks

S-Type Masks

Model MC-BF003

Meicen B-Series U-Frame Head Baseplate
366 (Length) x 420 (Width) / mm

Claw Lock (Replaceable)

- U-Type Masks
- Headrests

Compatible with:

A-Series Baseplates

MRI safe option available

- Contoured design for patients comfort;
- Adjustable scales for different body size;
- Sides emargination for simple installation and carry;
- Choices of vacuum bags, thermoplastic masks are available.

Model MC-AF001

Meicen A-Series AIO Baseplate
1300 (Length) x 550 (Width) / mm

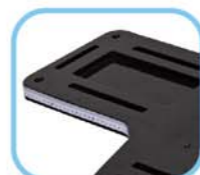

Hand Grips
R-BS02

Block Set

Cushion fixed holes

Strips fixed sinks

Compatible with:

Overhead Arm Support
Carbon fiber: R-CFB02

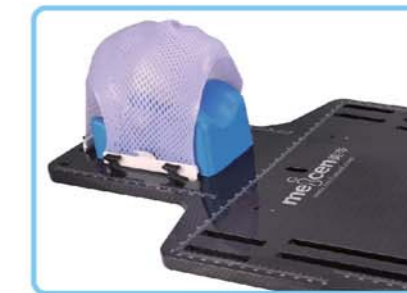

A-Series Baseplates

MRI safe option available

Model MC-AF002

Meicen A-Series Head & Shoulder & Breast Baseplate
1000 (Length) x 550 (Width) / mm

Model MC-AF003

Meicen A-Series Pelvic Baseplate
850 (Length) x 520 (Width) / mm

Easy handling design;

Ergonomically shaped
for patients comfort.

Compatible with:

L-Type Masks

Headrests

Vacuum Bags

Indexing Bars

P-Series Baseplates MRI safe option available

Meicen P-Series Head & Shoulder & Breast Baseplate is compatible with Meicen P-type thermoplastics. The baseplate is configured for multiple treatments and can be used to immobilize the head, neck, shoulder and thorax. Extended version for whole-body treatment is also available too.

Model MC-PF002

Meicen P-Series Head & Shoulder & Breast Baseplate
1000 (Length) x 550 (Width) / mm

Compatible with:

P-Type Masks

Headrests

Vacuum Bags

Indexing Bars

MRI Baseplates

All Meicen series baseplates are available as MRI compatible made from durable glass fiber which secures hardness and user comfort. Please contact your sales representative for more information about MRI compatible baseplates.

Model MC-MRC01

MRI C-Series AIO Baseplate
1300 (Length) x 606 (Width) / mm

Compatible with:

S-Type Masks

Trunk Masks

PVC Clear Headrests

Vacuum Bags

Breast & Lung Solutions MRI safe option available

Meicen Wing Board T/U Grip is a simple and comfortable positioning set up constructed of a carbon fiber shell with a foam core for added stability with minimal attenuation. A combination of T-Shaped/Wing Board Vacuum Bags, Headrests and Lock Bars forms a perfect solution for breast and upper body treatment positioning.

Meicen Wing Board T/U Grip
Size:547 (Length) x 544 (Width) / mm

Model MC-WB001
Meicen Wing Board T Grip

Model MC-WB002
Meicen Wing Board U Grip

Fine scales allow fully precise adjustment.

Compatible with:

Supine Breast Board

Vacuum Bags

Breast & Lung Solutions

Meicen Prone Breast Board immobilization system is specifically designed to be simple, comfortable, and reproducible. It is specifically optimized in the following ways:

- Variable aperture openings to accommodate different breast sizes;
- Multiple heterolateral wedge sizes to assist with patient tilt;
- Adjustable massage-style face cushion;
- Scale rulers for easy verification of longitudinal and lateral position of the patient;
- Reversible breast section allows for treatment of either breast.

Model MC-PB001

Meicen Prone Breast Board
Size:1325 (Length) x 445 (Width) / mm

Replaceable Components

R-PBA02

R-PBA03 (S)

R-PBA03 (M)

R-PBA03 (L)

Breast & Lung Solutions

Meicen Supine Breast Board is a lightweight and cost-effective set up engineered for quick, simple and efficient patient positioning. Utilizing a coreless, single-layer carbon fiber treatment zone, the Breastboard provides an IGRT treatment zone with minimal attenuation and maximal homogeneity and stability.

- Fully adjustable for different height and size;
- Simple, customizable setups for patient comfort and clearance;
- Contoured lumbar area and enhanced bottomstop with easy locking;
- Accepts S-Type head mask for stable, reproducible supraclavicular treatments;
- Accepts breast thermoplastic.

Full range adjustable arms / wrists supports

Inclination from 5° to 25° in 5° steps

Model MC-RX001

Meicen Supine Breast Board Standard
size : 1325 (Length) x 445 (Width) / mm

Breast & Lung Solutions

Model MC-RX002

Meicen Supine Breast Board Plus
size : 1325 (Length) x 445 (Width) / mm

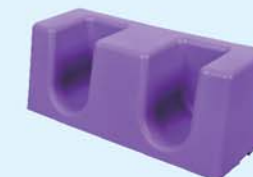

Model MC-RX003

Meicen Supine Breast Board Pro
size : 1325 (Length) x 445 (Width) / mm

Optional Component

Foot Cushion
R-FC04

Headrests

Breast thermoplastics

Vacuum Bags

Indexing Bars

Violet Thermoplastics

Meicen Violet Thermoplastics are made from a new, premium thermoplastic material clinically designed for optimal moulding time and patients comfort with extremely low shrinkage rate and non-sticky surface. Excellent patient experience is all we striving for throughout the entire process. Special designs are available upon request to meet different manufacturers' baseplates compatible needs.

- Low shrinkage;
- Optimal molding time;
- Ergonomically designed for patient comfort;
- Non-Stick;
- Violet color to alleviate patient anxiety.

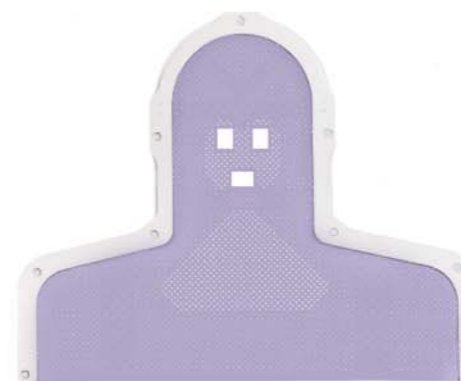

Emarginated frame design for easy removal.

Meicen Featured Thermoplastics

Meicen IMRT Thermoplastics feature a combination of enhanced perforation and solid thermoplastic to provide rigidity and secure immobilization for IMRT treatments. Open face & claustrophobia masks are compatible with VisionRT's Align RT Camera systems and other camera systems while standard perforation masks are more cost-effective and popular in most clinics.

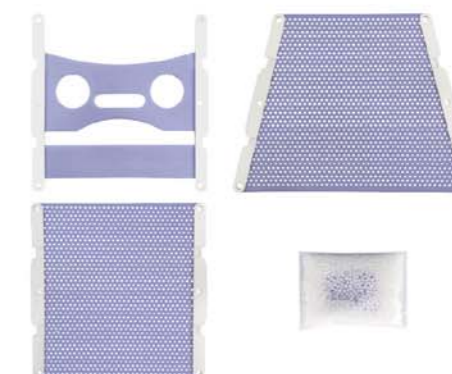

S-Type (Open Face)

P-Type (IMRT)

L-Type (IMRT)

Stereotactic X-Knife

Meicen Violet Masks are easy to prepare and can be heated with either a water bath at 65-70°C/149-158 °F or an oven at 70-75°C /158-167 °F. Please contact your sales representatives for more information.

X-Knife Violet Thermoplastics

Meicen Brainlab ExacTrac-Style Stereotactic Masks are composed of a new, premium thermoplastic material designed specifically to offer the ultimate in patient comfort with exceptional rigidity and extremely low shrinkage.

Additionally, the ExacTrac-Style Stereotactic Masks have a non-stick coating (NSC) applied to the patient-facing mask surfaces, helping ensure that the masks do not stick to the patient's hair, beard, etc.

- Cures in half the time of Brainlab brand;
- Adhesive Layers;
- Low shrinkage;
- Easy to manipulate and shape;
- Cost-effective.

Meicen Vacuum Bags

Meicen Vacuum Bags offer a rigid and secure support around the patients. The coated nylon shell protects them from tear and stain. The vacuum bags are completely air-tight, leak proof, water-proof and fill with optional density particles made from polyamide.

Built-in lock bars are available, different size and shape of vacuum bags are available too.

- Ultra durable, high-quality polyamide;
- Dark blue color distinguishable in optical imagers;
- MR Safe;
- Radio-translucent;
- Easy to clean;
- Cost-effective;
- Adapters available for any manufacturer's pump.
